# The Deeds of Christ

And

## The Redemption of Lucifer

**Saturday, June 14, 2014 – Steamboat Island, Washington**

Something happened yesterday, Friday 13<sup>th</sup>. I don't know what it is yet, but there is a very somber mood in the New Jerusalem.

*I meditate each morning, following the indications of Rudolf Steiner, to discipline and balance my capacities of thinking, feeling, and willing. Then I go on to clearing and energizing the chakras using color and sound and then engage in what has become very complicated, beautiful, sacred geometry. One form I had worked with for years became a vehicle for movement in the astral worlds, and in the past few years has been one of the means of movement from the Earth through the etheric plane and into the astral world, near kamaloca, where the New Jerusalem is to be found. The geometric shape was dubbed “the Cadillac of astral projection machines” by Rudolf Steiner when I first entered the etheric space within Mount Shasta in 2000. Now it’s just called ‘the Caddy.’*

*The New Jerusalem in the astral realm is the new meeting place of the White Brotherhood, the Ascended Masters and leaders and guides of human evolution. The true Galactic Federation has a wing there too. Classes and lectures are offered to living human beings who can consciously attend in spirit. Since 2000, I have participated in many classes and activities, first in the etheric field of Mount Shasta, and since May of 2011, in the New Jerusalem in the astral sphere. The activity there has intensified because Christ ascended into the astral realm at that time. The following is a description of the first and second deeds of Christ and the resulting redemption of Lucifer.*

### **The Physical Incarnation and the First Deed of Christ – the Mystery of Golgotha and Overcoming Death**

The perfection of the physical body as a vehicle for the Christ, was prepared for centuries and culminated in the birth of the Luke Jesus child. The mystery of the two Jesus children, with two genealogical histories, blended the strengths and destinies of each when the Mathew child's ego entered the physical body of the Luke child in the temple in Jerusalem when they were both 12 years old.

The cosmic Christ ego entered the prepared and perfected physical body at the baptism by John in the Jordan, when Jesus was 30 years old. For three years the Christ Consciousness resided in, and penetrated the density of matter in the body. When the bodily assimilation was complete, the Mystery of Golgotha – death and conscious descent into Death's domain– occurred. Christ overcame the effects and power of death by bringing the light of consciousness into the dark realms of Hades, releasing the dead human souls, and changing forever, the pattern of the after- life.

After three days his mission was accomplished and He consciously left Death's realm. He returned to Earth in his etheric form. He could re-assemble or resurrect a physical, material body by the strength of His etheric life forces. Thomas's touching His wounded sides, and His eating with the disciples are examples of experiences only possible to a physical body. He walked among men and women in both a physical body and in a spiritual etheric and astral body for the next forty days. Christ modeled a new relationship between consciousness and matter. He was now the Lord of Karma, and also the Lord of the etheric worlds of the Elemental beings. He could call into form all the physical matter needed for a physical body. The elements of oxygen, carbon, hydrogen, silica, iron, and all other necessary elements came willingly to His call, arranging themselves in the perfect form of his etheric template. Or He could dissolve that physical body in an instant and remain in His non-perceptible, super-sensory etheric, astral and spiritual bodies. He chose each condition as appropriate to each occasion for forty days after the resurrection.

Then, after forty days he ascended into the clouds, which is a metaphor for the etheric worlds. He entered the etheric body of Earth and his forces have been working there for 2,000 years. His higher aspects traveled into the cosmos to 'the midnight hour of existence,' transforming the after-death experiences for all humankind. The beings in the planetary spheres were visited by Christ and informed of the new pattern for the journey of the human soul between death and a new incarnation. New forces in the cosmos were set in motion to receive the dead human souls and lead them to Galactic Center, the 'midnight hour of existence,' and back to Earth for their next life with renewed vitality and abilities commensurate with the lessons learned in the previous life. Individual evolution took a cosmic leap forward.

We humans have the tools to strengthen and heal our etheric bodies through the forces of Christ from the past, in consciousness with the spiritual forces of Imagination, Inspiration, and Intuition. We can heal and revitalize our etheric forces by living consciously, so that we can evolve to the time when we overcome/vanquish death, the old-school time for transformation from one state to another. By such etheric healing, we can eventually transcend the physical, and transform into higher states consciously. Of course, before that time we shall also have to transform our astral/emotional body to a higher octave of positive reality and also transformed our human egos from the lower personality aspect to the higher Ego of truly Christed Consciousness. We will be busy

for a few millennia yet

How did Christ do it? Ascend 2,000 years ago, I mean. His body was the finest, most delicate, sensitive body which had been perfected in purity through centuries by the highly enlightened Essenes. There was little karmic residue left embedded in the cells of the body of Jesus, that the higher consciousness of Christ entered, at the baptism by John in the Jordan River. Christ did not add to the karmic load, but purified it further by fasting in the wilderness and repudiating the three temptations of Lucifer, Ahriman and the Azuras. In that way, He refused to allow them into His bodies – physical, etheric, astral, and Ego/I. Christ's consciousness alone lived in and experienced through all the vehicles in which He had taken residence.

Therefore, when it was time to overcome death, there was no human karmic residue left, no factor by which the old lords of death could hold Him. He was free in the realm of death to continue free action. Of course, as the Christ, the Solar Logos, and the creator and maintainer of the solar system, He chose to create and model the next evolutionary steps for Earth and humanity. He changed the pattern of the after-life to the path that would eventually lead to conscious ascension. That path includes consciously accompanying the various bodies through their various experiences in their original dimensions, and then transforming the lower ones to the higher spiritual octave – astral body to Spirit Self, etheric body to Life Spirit, and the physical body to Spirit Man.

Christ expelled the influence of the opposition to human evolution at the temptation in the wilderness. He then, for three years, penetrated the physiology and anatomy of the body of Jesus to the marrow of the bones and the dentin of the teeth, with His divine self-consciousness. Anatomy is the physical body, and physiology is the working of the etheric forces down into the material body. Christ set the new template for human evolution for the next 2,000 years, in this way. Our present task is to clear all karmic residues from all past lives, consciously. And, we must penetrate consciously into all the vehicles, thereby transforming them into spiritual organs and bodies, towards the time when the Earth herself will transform and shine like a star. We all go together when we go, even Earth and the solar system.

So Christ transformed the journey of the soul between death and rebirth, thereby ameliorating the effects of the Fall and the first luciferic intervention into human evolution. Death had now become a pathway to the cosmos – to the heart of the creator. Death, instead of being a dead-end in lower etheric and astral planes, became a stairway to the stars. And overcoming death has become a step on the path to fulfilling the highest evolutionary potential of humankind.

## **The Second Deed of Christ – Crucifixion in the Etheric World by Atomic Radiation**

For almost 2,000 years, Christ's forces, under the care and auspices of St. Michael, worked in the etheric body of Earth and ever more penetrated into human consciousness through the etheric bodies of humankind. The second 'crucifixion' of Christ in the etheric world came with the creation and use of the atomic bomb. The etheric forces before that time were all in harmony with the laws of the physical and etheric worlds – and evolving in a consistent way. The etheric forces were employed in keeping the atoms spinning in their appointed forms. Atoms, protons, and neutrons are the building blocks of the materially manifest universe, and etheric forces held the templates for the appropriate functioning of all particles in alignment with cosmic verities. The beautiful balance of form and function keeps atoms and solar systems spinning in harmony.

However, there are oppositional forces that damage not only physical matter, but disturb the functioning of etheric forces as well. Splitting the atom is one of these disastrous experiences. The first atomic explosion was the event in which Christ had to overcome, quell, and re-pattern the etheric world. Just as he had to re-pattern the after-life after physical death through the Mystery of Golgotha, now he had to re-adjust and repattern the etheric worlds with higher evolutionary forces. The atom was reduced to broken pieces, and the etheric forces that formerly were employed in their harmonious functioning, were angrily and violently let loose with nothing to do and nowhere to go, but just shoot out as destructive radiation.

That radiation damages the etheric bodies of all it touches and penetrates. Human beings have an etheric body, as do animals, plants, and angels. The Elementals, Fire, Water, Air and Earth, live totally in the etheric worlds. All of these are being hurt by the radiation since the 1930s, which has intensified through WWII, and all the explosions of nuclear bombs and the leaks of nuclear power plants. As we are sovereign within our bodies, we must learn to keep the etheric forces within ourselves at peace and in integrity with the true spiritual, etheric, human archetype – Christ. We must keep our own etheric forces clear and vital. We can do this by intelligent love (Christed consciousness), by intention in thought and emotion, and by rhythmic patterning of the etheric body.

As Christ in his first deed moved from the physical into the etheric world, in his second deed, he ascended from the etheric world to the astral world. From there he now inspires and refines the human potential for purified, creative emotions. Not only are thoughts creative, but feelings and emotions are also potent creators. Gratitude and appreciation are creative forces in the world and they act from the astral world, down upon the etheric body to re-vitalize it. The etheric body moves down into the physical body to likewise heal and enliven it. *(Mr. Emoto's work is an example: human emotions are used to transform water - the physical carrier of the etheric forces. The patterns of the healed and emotionally revitalized water are seen directly in the physical ice crystals, as the water is attracted to the corrected etheric patterns and make whole, symmetrical, balanced, beautiful*

*snowflakes.)*

So Christ had to and did ascend into the astral world from which vantage point he can work to heal the etheric forces destroyed by mankind under the influence of Ahriman. Lucifer was nominally redeemed, or at least the results of his major intervention into human evolution (The Fall) were beginning to be redeemed. The necessity for death has finally been changed and ameliorated, and in time, when enough humans awaken to the profundity of Christ's deed, death itself will be obsolete.

(Rudolf Steiner has indicated that a second crucifixion of Christ occurred at the end of the 18<sup>th</sup> century by suffocation through the materialism brought into the spiritual world of the dead by people of the time. From my perspective in 2017, that suffocation was similar to and served the same function as many of the events of Holy Week, such as the fickle disbelief of the people and the Sanhedrin, the scourging, and carrying the cross. It was the precursor to the crucifixion. It was the strengthening and clarifying of the etheric forces before the final necessary and very difficult next step.)

This next phase, which has begun already, must be perceived, acknowledged, validated by personal experience, and integrated into 21<sup>st</sup> century daily life, religious life, and scientific spiritual life

### **Sunday, November 27, 2011 – Berlin, Germany – Christ's Description of His Deeds**

Today is the day to understand radiation and the second deed of Christ. He said, "My first deed in the physical, was to penetrate with consciousness all the way to the atomic structure of the body and the physical world. By penetrating and experiencing consciously, all of the unconscious, shadow and unknown aspects of the physical world, they were infused with light. It is like what happened in 'hell' on Holy Saturday – light entered every aspect of Hades realm. Light and consciousness allow for free choice. To perceive is the first step, then to know and understand the meaning of what has been perceived is the second step, and the final step is then to choose freely to love and accept whatever is the issue and act accordingly. In the case of the Mystery of Golgotha, it was the parameters of the physical world and the effects of consciousness on the physical body and soul, life and death. Before the turning point of time (Christ's death on the cross and the resurrection) the soul was bound, through the state of human consciousness, to the physical body, and went nowhere, except into Hades, at death. The light of consciousness alone can release the soul from bondage to darkness and the physical."

"The second deed in the 1930s, culminating in Hiroshima and Nagasaki, was impelled by the necessity to understand the laws and workings of the etheric world and to consciously choose to heal and balance the etheric forces after the atomic bombs were detonated. The four ethers were damaged, each in a different way. The two lower ethers

were affected by the actual dismemberment of the atoms as the particles and components of atoms changed from the relatively stable configuration of one element on the periodic table, to pieces and then momentary instants of being other elements and trying to bond in new ways to become other kinds of matter – hydrogen or oxygen or iron or cobalt or a molecule of anything – an amalgam of many different kinds of matter, trying to reassemble and bond. But there was not enough cohesion and too much interference and chaos for resolution or precipitations of any stable form of matter.”

“The higher two ethers were released as gamma and x rays and all the “rays.” Etheric forces, formerly of cohesion, were let loose and ran amuck destroying everything in their path. An excess of etheric force disturbs the normal functioning of the physical bodies of humans, plants and animals. The excess etheric forces 'bump' the normal forces out of their appointed patterns, so anomalies show up in DNA and growth aberrations. The true etheric archetype of the species is damaged and overcome by the excess etheric chaos. My deed, therefore was only a mitigating of this process. Without My holding the archetype of the whole earth and everything on her, in My consciousness, the chain reaction the scientists were afraid of ,would have occurred, or at least, the spread of the chaos would have gone on over hundreds of thousands of miles and for hundreds of years.”

“I, Christ, experienced all of this while in the etheric world. And I had to 'work like a dog,' to contain the chaos. In this case, the 'crucifixion' was the atomic annihilation of My etheric body. The 'resurrection' in the etheric worlds was My consciously reforming and healing my pure archetypal, etheric body, and safely holding the pure patterns for all created earthly existence. I 'ascended' into the astral worlds much later in stages, by withdrawing from each ether, after re-establishing balance and harmony there. My ascension began at the end of WWII and continued through the 60s, 70s, 80s, 90s, and into the 2000s. I and the ascended masters finally left the etheric worlds – the sacred mountains of the earth – for the New Jerusalem in kamaloca, the astral moon sphere, just this year, 2011, as you know.”

“I have set the patterns for conscious penetration into the physical and etheric worlds. It is time for humanity to step up to the plate and anty up to the importance and magnitude of the 'game of existence.' Yes, sitting and drumming, chanting and praying, singing and dancing, in peace is the first step to tuning in to physical and etheric perfection. Beautiful Human Beings, you shall achieve that – physical and etheric health and vitality.”

“The next big learning is to love life and death and everything. You will not actually ascend until your physical, etheric, and astral bodies are penetrated by your loving, conscious Ego/I. But now the templates are set for physical and etheric healing, and humanity can achieve beautiful, vital, healthy bodies, infused with rich etheric forces. All held together by LOVE, because that is what we all are working on now. And, the

individual must do all of this out of free will and free choice.”

“So, your job is to mop up the etheric messes. Humanity must learn to use LOVE as a tool and a medicine. The remnants of the etheric worlds need to be healed and loved. LOVE, a pure emotion, is the force that can bring radiation into completion and balance. The laws of a higher world when invoked and applied, supersede or over-ride the laws of the worlds beneath, or of a lower vibration. The astral, emotional power of the frequencies of love and light affect the etheric and physical worlds. You humans have but to apply it.”

“So, good working to you. Be happy and productive and you can indeed have a beautiful, clean, clear, vital, and vibrant world to live in. And yes, it is true: the more human beings wake up now, the better for everyone and everything. A new world is coming, that is clear! How you/we make the transformation? That is up to each one individually, but also collectively. If humanity does not do what is necessary to achieve a certain level of consciousness and heal the world, then Mother Gaia, will have to do it herself. And so far, she has, like the 'Little Red Hen' had to do it all by herself. It's time to answer the call, step up, and help. So, get busy, Darlings, and heal and shine, inside and out. LOVE FOREVER. Christ”

My meditations continued, ignited by Christ's revelations. Christ has risen into the Astral World of the Stars. He, too is evolving, in that His consciousness, which was formerly “Solar” and worked primarily within the Solar System, has now expanded to become “Zodiacal” and has moved into the realm of the stars.

The etheric Christ within is the Adamic template of perfected humanity. Each human being has a template of a perfect etheric body as well as their own functioning individual ether body. And we each have our own individual astral body as well. Mary has achieved a perfected astral body – the pure Eve template, the Spirit Self.

Mary, the mother of Jesus, is said, by Rudolf Steiner, to have purified her astral body. She would have been one of the first human beings to do that. To ascend into the astral worlds, takes purified emotions and a transformation of the reptilian brain stem default position of the human instinctive response mechanism. Classic pictures of Mary have her foot on a snake – the symbol of overcoming the luciferic intervention, and conscious transformation of the reptilian brain stem. Christ has evolved into the starry astral realms. Mary, is here in the astral realms of earth.

A strong, healthy ego can purify the astral body, which in positive emotional states, works energetically in revitalizing and re-patterning the etheric body which then balances and vitalizes the physical body. We must take responsibility for the astral purification and transformation of the reptilian brain stem which governs the chemistry of the emotional response mechanism to sensory life experiences.

By flooding the system with positive endorphins, hormones and peptides, we transmute the receptor sites on the cell walls and entrain them to respond to positive

chemicals and emotions only. Without being constantly flooded by fear, and adrenaline, their specific receptor sites atrophy and then change. They lose their ability to accept the negative secretions of adrenaline, fear, and anger. They change not only their function, their physiology; but also the cell wall structure, their anatomy. Dr. Bruce Lipton in his book, *The Biology of Belief*, and Dr. Candace Pert in, *The Molecules of Emotion*, both gave the keys to understanding the process of conscious physical transformation.

Accomplishing this change in form (anatomy and physical) and function (physiology and etheic) transforms our relationship to the world and modifies our response mechanism to consciously chosen love, compassion, interest and alertness, instead of “fight or flight, kill or be killed, eat or be eaten.” The whole motive of response is changed consciously and responsibly. The default, hard-wired, survival-at-the-expense-of-others, adrenaline-driven, reptilian brain stem function (the instinctive, autonomic nervous system) is reset and rebooted by conscious design. A new humanity with new conscious responses will be able to flourish in a co-operative world of brother/sisterhood and community. The old reptilian influence, at work in the instinctive subconscious of humanity since the time of “the Fall,” can be replaced by its higher octave – the consciously evolving “Dragon Consciousness” of wisdom, generosity, largesse and compassion.

## **The Redemption of Lucifer**

*(The following two Journal Entries are background thoughts about Lucifer.)*

### **Monday, June, 2011 – Ariel's Cabin-in-the-Woods, Oregon**

Lucifer inserted his consciousness into the primal astral bodies of Adam and Eve. The medulla oblongata (the reptilian brain stem) and the survival response of the autonomic nervous system, is activated by emotions from the luciferically infiltrated astral body – primarily fear and anger. The symbiotic relationship between the emotions and the reptilian brain stem can, however, change. By consciously moderating and modifying our emotional states, we can change the survival response of the medulla oblongata from activation via fear and anger, to more positive emotions such as intensely alert interest, cooperation, and compassion. The metaphor which describes this process and its resultant transformation is: the change from the reptilian snake to the celestial Dragon.

### **September, 2011 – Asheville, North Carolina**

Today brought a clarification of the light of Lucifer and the light of Christ. Lucifer brought the light of consciousness – the death process of thinking – to mankind. Christ's light is a cosmic force which is life giving.

Lucifer's thinking is the phosphorus burning death process of nerves and matter as Rudolf Steiner described. It is a cosmic process that dropped down into matter. When thinking is only applied to material logic, and only involved with materialistic thoughts, it is a death force to the spiritual within the human being. It is not only the form of thinking, be it logical, analytical or deductive, but the content matters as well. If the content is spiritually alive and profoundly conceptual, then the human being is enlivened by being the host for the spiritual beings of the Truth, which is being thought about.

Conceiving true thoughts is using Lucifer's gift of the thinking process to create a 'thought body' in which spiritual beings of truth can reside. Christ consciousness brings human thinking to cosmic levels of interaction, mutual benefit, and fecundity. Christed thinking – Christ consciousness – puts our earthly life into a cosmic context.

### **Wednesday of Holy Week, April 16, 2014 – Marin Valley, California** **The Redemption of Lucifer**

“There is an irrepressible rising of the spirit:” words from the spiritual world this morning.

The realizations of the continuing pattern of Christ's second deed in the 30s, brings us into a new ascension in May of 2011. I believe that a second Whitson/Pentecost came at 12/21/12. It was an energetic boost, a transformative energy of newness and positivity even in the face of dire world circumstances. A new influx of love and consciousness poured down on Earth and all her inhabitants from Christ in the astral world. It was written in the stars that 12/21/12 be the time.

The astronomical events of the present time are further deepenings and expressions of the new 'tongues of flame,' or as I began to write 'flaming tongues.' I am alight and afire with a tongue of flame. My tongue speaks incendiary words of penetrating meaning to inflame the souls of those who hear with the fire of spirit. I am a disciple of Christ this time around. At the time of the Mystery of Golgotha, I was incarnated in an esoteric community in the Gobi Desert. Like St. Brigit in Ireland, we experienced Jesus birth clairvoyantly, but were never disciples.

There is a new irrepressible joy in the world, even though things are difficult on the physical plane. Death, illness and accidents are all around, but the human soul is lighter. We understand, even 'instinctively' that things will be OK in the end.

*(Now, back to the original journal entry at the very beginning of this book, after my personal digression.)*

**June 14, 2014** (continued from page 1)

Something has happened to a very high being. It's like a wake or death watch. It's ascension, but it's somber. The being laid out and honored or 'watched' came around in spirit, invisibly and blessed everyone. I experienced it as a touching of my head and I saw a beautiful man's face as this was happening. It awoke the memory of my morning dream of a similar beautiful face and the sensation of being touched on my head. *(It must be stated here that I do not dream as a rule. In my teens, I had a few vivid, archetypal dreams, but none since then. I do my spiritual journeying out of body in clear consciousness.)*

The fact that this happened on Friday the 13<sup>th</sup> – does it mean that something which should not have happened, did? Is this a ruse? The original Friday 13, in the 1300s was the date of the capture of the Knights Templar and the destruction of their Order. Friday the 13<sup>th</sup> of May, 2011 was the date of the take-over by the dark side of the spiritual mountains such as Mount Shasta. What is this that is happening on Friday 13, 2014? I must watch and see.

**Sunday, June 15, 2014 – Steamboat Island, Washington**

When I came up to the New Jerusalem, a large and somber group of twenty-four beings were sitting on either side of a large figure lying on a massive altar. As I stood at the foot of the altar, the twelve hooded figures on the right side were dark. No light shone from them. On the being's left side, the twelve were glowing.

**Monday, June 16, 2014 – Steamboat Island, Washington**

After the preparatory meditations, I traveled upward. What I see is that it is Lucifer, the fallen Archai, who is the large being on the altar. I asked and went through the hierarchies and came to the fact that it is, indeed, Lucifer. He is going through an inner initiation and working on a spiritual task, like the initiates of the ancient mysteries did.

*(The following is a review of Lucifer and the other two forces of evil, to better understand what is happening in the New Jerusalem.)*

**Lucifer** entered human evolution at the time of the 'Fall' and inserted himself and his minions and influence into the human astral body. He is a retarded being from Old Moon.

“All this messy human living is such a bother. Let's get off this wheel and ascend into the pure and holy spirit worlds. I'm OK, you're OK, everything's OK. We are all one and all hunky dory. It's all in your mind anyway. We are making up this illusion of life, so just be happy. Everything is OK. Don't soil your hands mucking about on earth.

Let's hear it for sex, drugs, rock 'n' roll, football that we can watch in safety and comfort, TV, entertainment and pseudo-spiritual pleasures – anything to get our minds off our pitiful, little existence. It's easy – just say “no” to Earth life. Instead, live in the lovely spiritual creations of the mind. Let the passionate emotions flow. Don't hold back, just go for it.” thus tempts Lucifer.

Lucifer intervened in Earth evolution in Lemuria at the time designated as “the Fall.” According to the Bible, Lucifer was the regent of the Morning Star, although there is some question as to the correct naming of Venus, Mercury, or the planet that is now the asteroid belt. He was a Kyriotete who had accepted the task of playing the part of the dark side – or in this case, the excessive light side, as a goad to consciousness and a force for humans to 'bump up against.' In this way humanity could become conscious of the duality of physical existence and evolve through dynamic interaction. Intelligence and the choices offered by duality became possible through Lucifer's actions. He is not neutral, however, but tempts mankind into a particular direction.

Lucifer works through the astral, emotional body to influence humanity to prematurely withdraw from appropriate evolution. The divine plan is that we are to become as Christ – as gods – and in time, to function creatively in the cosmos. But, Lucifer would lead us to believe that we can ascend into the pure, untrammelled spiritual worlds and avoid all that distressing growth and development.

Falling for the luciferic temptation results in lifting off of the earth into an illusionary world of bliss, ignorance, and adamant self-delusion, by whatever means is most attractive and available – drugs, psychedelics, alcohol, sex, fuzzy meditations, or any activity that leads to suppression of consciousness or only considers the unconcerned union with divine oneness as the only goal in human life. Lucifer and his minions would like humanity to remove themselves from all responsibility to the earth, and leave it to him.

At the change of the chalice to the blade, **Ahriman** entered human evolution. That was at the time of the ancient Persian epoch. He works through the etheric body and through a manipulation of logical, sequential thinking. Ahriman is a retarded spirit of Form, or Exusiai from Old Sun.

Ahriman, on the other hand, says, “Oh, no you don't. You can't get away from the earth – it is all there is. What you see is what you get, so get it while you can. Grab what you want when you want it. Physical stuff is for the grabbing. Science is god. You can weigh and measure only what is real and true. There is nothing else. Karma? Ha! Reincarnation? Ha ha!! Death is the absolute end of existence, so satisfy all earthly desires – after all, that's what they are here for. You're a fool if you don't and a sitting duck for those who do.”

The results of following Ahriman's seductive call is atheism, sclerotic science-bound thinking, and amorality – which is immoral. The soul of humanity is denied

existence and eradicated. The senses are the boundary of experience. Ahriman wishes to lead humanity downward into earth-bound, only sense directed life. His is a 'dog eat dog' kind of existence – or maybe it's 'big fish eat little fish.' That may be true in some aspects of nature, but it is not applicable to the human soul and spirit.

Ahriman leads the thinking astray through influence in the etheric body. Technology has been developed that harms the etheric body as well as the physical. DNA is the physical touch-point and carrier of the archetypal etheric pattern of evolutionary potential for each species and each individual. DNA can be damaged and mutated by radiation, GMO tampering, EMF and HAARP vibrations and numerous other scientific/technical ways gone bad. The whole earth and all of humanity is under attack by these means.

The **Azuras** will enter the Earth at the turn of the millennium on a 'world wide web,' said Rudolf Steiner in 1920. They will seek to destroy the Ego/I of each individual human being. They are retarded Archai from Old Saturn.

Ahriman is setting the foundation for the further work of the Azuras. The physical manifestations of science and technology that do not admit the existence of spirit and the value of the individuality, are the medium through which the Azuras will work. They are intent upon destroying the core identity of humanity – they are bent on annihilating the true human Ego/I, the higher self of the human spirit.

This they do in ways which have taken social forms. Individual human beings can be reduced to a meaningless number through politics, the educational system, the health and social systems – in fact, all systems in which individual needs are not considered, much less met. Corporations as individuals with legal rights but no responsibilities to humanity, are a perfect example of the results of azuric influence. An educational system where the dollar is the bottom line and the lowest common denominator is the rigidly-held standard to which all children must perform, is another. Any game, movie, philosophy, organization, or other entity that obscures and denies the noble divinity of each human being, and renders them worthless cyphers, is azuric. Punitive and judgmental social systems which shame and degrade, political and financial institutions which victimize the populations they were created to support, are all inspired by the Azuras.

The Azuras are taking over from Lucifer. The weak thinking, self-gratifying delusions of hubric spirituality, and the reduction of the complexities of existence to 'we are all one' or undefined 'love,' has made many people ripe for the elimination of the Ego/I – the self-conscious divine spark of each individual. The word Ego, itself, has been co-opted and abused by Lucifer, and now under the influence of the Azuras, the Ego/I is being banished and replaced with a smug sense of pseudo-spirituality or techno/robot consciousness.

We are in the age of the Consciousness Soul, now and since 1450, and what is

needed are strong individuals who can think clearly and logically. (Reason and logic are not antithetical to spiritual realities.) There are laws of the different spiritual worlds and realms just like there are 'laws' of physics and chemistry in the physical world. They are all different, but it is not just 'up for grabs.' The other worlds are not simply the results of human thought. They are as objective as the physical world with reason and logic appropriate to each dimension.

By rendering the spiritual worlds, as well as time and space, the result of mere human thought, there is no context for human existence: no goal, no progression, no evolution. In this world view, there is no meaning or value in individual destiny, cultural or social progress, the evolution of consciousness, or human life. The individual who succumbs to this new age rhetoric is always attempting to eradicate his or her ego and blend into a oneness with all there is, rejecting their own uniqueness and choosing instead to melt into the 'wholeness.' An Ego/I, the divine spark in each human being, is necessary to discern truth from distortion, reality from delusion, and the motives behind the spoken or written words – if not of the authors, then of the beings inspiring them. The Azuras would like to sedate that faculty of discernment in order to obscure the truth, meaning and value of human life.

*(The original story continues.)*

It was a chilling review and I was happy to continue on with my perceptions. Christ ascended into the astral realm of the earth in May of 2011, after the disaster of Fukushima. Since that time, He has been permeating the astral world and all below it with ever increasing amounts of unconditional love. Lucifer and his minions had been sequestered in the astral realm since 'the Fall.' They had set the tone in the astral world for much of what humanity has been experiencing in their emotions for millennia: fear, anger, and angst. With the arrival of Christ, the whole vibration of the astral world was transformed into intense love and brilliant light. It heralded the onset of Lucifer's transformation. He could not remain dark in Christ's presence, nor could he hide or leave. Time for change had come.

In a profoundly enlightened state which resulted from being in the presence of Christ, Lucifer began to change. He is releasing his minions from the plane where they have been working, doing the will of the dark side, since the Fall in Lemuria. His own redemption began with the deed of Christ, 2,000 years ago. Lucifer's task was to bring intelligence and thinking to humanity. That he did, but along with that came the temptation to remain in an illusory, emotionally-laden thought world instead of incarnating solidly on Earth. The addictive temptations of alcohol, drugs, sex, rock-n-roll, blissing out and living in illusion and delusion is his work as well. He and his minions have done a very thorough job of leading humans away from their cosmic destiny. It is time for his release from this task.

However, even now, as Lucifer is moving through his initiation and purifying

his own dark side, many humans continue to live immersed and addicted to Lucifer's former dark insinuations. They have taken over Lucifer's function in their own bodies, minds, and emotions, and cemented them in by physical and psychological addictions. Lucifer has been atoning for and will be atoning for his deeds for a while. One of the first things he did as he traveled in the astral realms was to release his minions from their bondage to himself, freeing them to respond to Christ. He said to the non-personal, general minions whose tasks were in the world, "I am no longer your master. You are free to follow the Christ now." Most of the luciferic minions have responded positively and have turned to Christ. Some have not and are seeking a new dark lord to serve. Some are on their own. They too, all have different destinies.

Now, Lucifer is lying on the altar and journeying into farther realms. He has freed the other kind of his minions – the individual, personal imps – so that they can be more effectively transformed by the efforts of their humans as people purify their astral bodies. The human work of cleansing and purification will accrue to the luciferic imps also. The imps can ascend to their next higher level when they have been redeemed by conscious human acts of love and kindness. It will work much like the love that the humans have given to the Elementals that they have co-operated with. (*Refer to "Christ, the Elementals and Radiation."*)

The vibrations of the astral world are changing dramatically. Lucifer is flanked by twenty-four beings – twelve of light and twelve of the former darkness. His dark side has fulfilled its mission, and those who worked with him for the dark are moving to a higher realm and being reinstated as positive forces. Lucifer was a retarded being who has achieved full, honorable status as an evolutionary member of the hierarchy, and brought most (if not all) of his followers and minions into proper alignment for their positive evolution also. When it comes to the individually inserted imp, the human being is responsible for their transformation – hence the necessary transformation of the reptilian brain stem to the Dragon of higher consciousness. We must relate with love, transforming our response mechanism to life into a positive impulse, thereby redeeming our personal imp. When we have consciously changed the default response to life from 'fight, flight, freeze, kill or be killed' to an attitude of alert curiosity, we have removed the major avenue of the luciferic imp's negative influence in our emotions and lives.

Lucifer's astral body has been on the table since Friday the 13<sup>th</sup>. He is journeying upwards for affirmation and ceremony. He is travelling with Christ out to the midnight hour of existence (Galactic Centre) and meeting all the beings of the hierarchies along the way. He will work in support of human souls afterlife journey in a new and more powerful manner. When he returns and reintegrates with his astral component, it will herald a new dispensation – a new phase of evolution. Then the two forces which will continue to batter humanity with duality will be Ahriman and the Azuras – cold thinking vs. rampant, low-vibration egotism. Hopefully, humanity will have balanced

their astral bodies securely in Christ by that time

## **Tuesday, June 17, 2014 – Steamboat Island, Washington**

My meditations are taking on new meaning and form. Inner transformations are occurring early in the process, and the cosmic sounds and feeling of gratitude are more intense. By the time the chakras have been cleared once, there are many multiple-realm experiences in full bloom.

Today, being such a day, was the time for the redemption and transformation of my imp – my personal luciferic imp. When I came to the golden hands and the solar plexus, will, and the crucible of the tan tien, the source of ener-chi and the fire of the root chakra, my imp appeared. (*Aspects of my chakra clearing meditations can be referenced in "Meditative Processes and Practices."*) I took it by the hand and said, "lets enter for purification." I was already standing in the crucible and guided the imp to stand in front of me. It looked a little like the classic 'Brownie' with long skinny arms and legs all akimbo, a round body, and small head with a grimacing face. When the flames leaped up, the imp transformed into a tall, noble being in a gown of shimmering light. It was the beautiful being I had dreamed of on June 14. I looked at my former imp in amazement. He was tall and radiant. "I am Regalis." He said. I called Christalina, my guardian angel, to meet this beautiful being. When she came, she smiled and said, "Ah, I have been waiting for this day. He is my twin flame." Now I have two guardian angel beings that will help me to stand strong against the wiles of the ahrimanic and azuric temptations, presently loosed on Earth.

I introduced Regalis to my spiritual family and guides. When he stood in the center, they were all very happy and excited. The Warriors of the Rainbow Light came around him, to welcome him and see who and what he is. It is not clear what kind of dimensional being he is yet. (*The Warriors of the Rainbow Light are human dead who have been freed from the stagnation of the earthly atheistic and materialistic beliefs of their former lives. Refer to the chapter in "Aberrations in Heaven and Hell: When Life Impinges Upon Death."*)

Then we all piled into the caddy and went up towards the astral planes and the New Jerusalem. We stopped at the donut for a moment. (*The donut is a circular double row of pillars in the space between Earth and the moon. I think it is at the La Grange point which is the perfectly balanced point between Earth's and the moon's gravitational pull. I often stop there to look back on Earth to see an overview of what is happening, before I continue up to the moon-sphere proper and the New Jerusalem which is in the kamaloca area of the spiritual worlds.*) It seems to me as though there is a tiny soft glow of many new grass root's lights, like tiny new hair growing in all around the world. We are awakening! The light is growing slowly but surely.

We were separated at the entry of the auditorium in the New Jerusalem. Christalina, Regalis, and I went up on stage with many other trios. The family sat in the

audience. It was a graduation ceremony and a welcoming of the redeemed imps as a new aspect of each human being. I had introduced Regalis to the family before, saying, "this is a new aspect of the conglomerate that I am."

We three walked forward to Christ whose eyes were twinkling as he said, "I greet you formally this day" and shook Christalina's hand, then mine. He greeted each of us with a burst of love. As He held Regalis' hand, He said, "With great joy, we welcome you and bless you." Then to the three of us He said, "I bless you with the will to work well together. I approve and thank you, Regalis, for the work that has brought you to this place." Then Christ gave me a little wink, which was about how full His lap will be when we come again on a less formal day and sit in his lap. Everything is precious and remarkable in the New Jerusalem, no matter how 'mundane' or even silly.

When enough people have consciously redeemed their imps and when enough transformed imps can help awaken their people, and a sufficient number of graduation ceremonies have taken place; then Lucifer will arise, and with great dignity and honor, will ascend to the next higher realm for his own evolution. This has been a crucial time for world advancement and will continue for a while longer. Change is assured – change and transformation to the positive. Thank God.

### **Monday, June 30, 2014 – Bellevue, Washington**

Today there is more on the redemption of the luciferic imps. Today the Native American contingency wants to come and engage in what is happening. (*For a more complete understanding of who the Native American Contingency is, refer to the chapter on the "Native American Adventures" in "Aberrations in Heaven and Hell"*) The redeemed luciferic beings will become allies and a positive connection to the spiritual worlds. There will be a new grounding in appropriate relationship to the spirits that was not available before.

The Native Americans who are left on Earth right now can overcome the alcoholism more easily than before. Their former imps can help in the process. They will offer encouragement for positive steps and actions within each individual Native American to stop drinking and smoking and doing drugs. The recovery programs will start working better and more effectively now. A true, reasonable spirituality appropriate for our time will return and arise in the consciousness of many Native Americans. This will help against the wiles of Ahriman and the Azuras. People of other races who resonate with Indian lore and traditions of the best kind, who have individually adjusted the beliefs and practices in a good way, will be graciously included in Native American lives. A new influx of modern, creative synergy will move both the Native Americans and those who are called to their way of life, to a new level.

Then the meditation turned to the higher realms and we entered the New Jerusalem. The twelve light and twelve dark beings seated around Lucifer on the altar are those beings involved with the twelve streams of human evolution. The twelve dark beings on the right infiltrated each stream with negative luciferic impulses. The

twelve shining beings on the left side resisted the negative forces and inspired the streams toward their positive and rightful evolution. The 12 light beings are working to transform the twelve streams of the luciferic shadow, to the positive light side, so that those humans most affected by the streams of culture can be stronger to stand against Ahriman and the Azuras.

The influence of the Azuras will intensify what before was a component of the luciferic temptation. Under Lucifer's negative influence, the Ego/I was made lazy and susceptible to the temptations of getting off the wheel of life and incarnations; opting out of responsibility in this life by illusions and self-delusion of ease and grandeur; and withdrawal from life's destiny by drugs, alcohol, and indulgent irresponsible life-styles such as vanity, narcissism, sex addiction, and aberrations in all of its forms – music, art and literature pornography, etc. These are all results from severe imbalances in the astral emotional body that affect the physical and etheric bodies, as well as deny the self-actualization of the destiny and enlightenment of the true Ego/I.

Now that Lucifer is being redeemed and moving upward in his evolution. His minions – the individual luciferic imps – must be redeemed by each individual human being, whereby they will also ascend to a higher vibration and become helping allies to their people, and companions to their people's guardian angels. We need all the help we can get. And they need our help to rise higher as well. It is a win/win situation, and part of the major transformation of our times.

The Azuras are here on earth. They seek to destroy the Ego/I of the individual. Instead of a balanced true sense of self, the lower egotistical, personal, psychological aspect of the human being will become inflamed and over-riding. Unpurified, unredeemed emotional habits will lead to excessive egotism at the expense of any and all other considerations. People who grow up divorced from nature and inundated with technology to the disappearance of normal human relationships and physical bonding will have no real meaningful life or identity. There are no natural limits or guidelines to the expression of an assumed, illusory self, hence rampant egotism will replace a realistic, balanced sense of personal identity.

If, on the other hand, one has worked steadily to purify, transform and balance one's emotions and astral body, and have succeeded, then as the Ego/I develops further in this next phase, the emotions and astral energies that manifest will be benign and even uplifting for the individuals, themselves, and for those who experience them. Evolution is constantly building upon past experiences, both positive and negative. Every little bit of goodness accrues and helps. It is never too late to do good and it is always spiritually appropriate to do so.

### **Saturday, July 12, 2014 – Seattle, Washington**

During the Act of Consecration of Man, celebrated by the Christian Community priest from Canada, (*The Christian Community Church arose out the request of a number of*

*ministers to Rudolf Steiner for a 'renewal of the sacraments.'*) I realized that Lucifer is having an initiation into his higher members and realms. Someday, Lucifer's higher self will return to awaken his lower aspect lying on the altar. He will reunite with his lower body which will be purified by the work of the two sets of twelve and ascend to his next higher level of conscious functioning. He will then be able to act from his higher impulses naturally. At that time, he will be the twin flame of Christ, according to Rudolf Steiner. The redeemed and elevated Lucifer is the twin flame of Christ, and the redeemed and elevated luciferic imp of each human being is the twin flame of each one's guardian angel.

Since Christ is now in the astral world, he rays down love and powerful energies into the lower astral and the etheric worlds. The dark beings there, feel the love and power coming from above and cannot bear it. It works on them as a constant temptation to love and kindness. One day, they too will be transformed. But, since Christ left the etheric world, we humans must generate more love and light and consciousness to leaven and brighten Earth and the etheric worlds. We can help to keep the ahrimanic beings under brilliant scrutiny.

### **Tuesday, July 22, 2014 – Steamboat Island Road, Washington**

Lucifer is lying on the initiation altar in a room in the New Jerusalem. He has been 'overcome' by the presence of Christ in the astral world and is in the long process of redemption. The room is lit by a candle and the glow from his body. The glow is faint, but will increase as he learns more and evolves into his higher self.

I asked, "What is the goal of this initiation?" I understood that when Lucifer arises from the altar, he will be filled with light and love. In time, when Christ must overcome Sorat, the sun demon, Lucifer will be there to help. Archangel Michael said to Lucifer, "I do not lay my sword before anyone but Christ. But when the time is ripe and we work together, I will honor you as well as Christ. You are lower than Christ, but higher and different than I am, and we will be united in serving Christ, the evolution of Earth, the solar system and, as Kienda is so fond of saying, 'this quadrant of the Galaxy.'"

The initiation will take some time. The twelve dark and twelve light beings on either side of Lucifer are the guiding and oppositional beings of the twelve streams of human evolution. They are working out the transformation of the results of the original luciferic intervention. The light side is bright and the dark side is not. Yet, I see a little light in the heart center of each dark being. They too, are going through an initiation – a kind of kamaloca where they are deciding and working on their own redemption and metamorphosis into a consciously positive force and influence in human evolution and the movement towards human kindness.

Back in the auditorium, the welcoming ceremony for redeemed imps is going strong. There are also celebrations of inter-species friendships, and individual

connections are being strengthened. As we humans redeem and transform what has been an oppositional insertion within us, we can now be trusted to work in the larger cosmic scale of healing the outer breach of darkness and infusing dark with light, love and gratitude. It is a process which will take time – but we are well launched, now, finally.

### **Saturday, August 23, 2014 – Joshua Tree, California**

I asked to see what is happening with Lucifer. I was shown the room and he continues to lie on the massive altar. The room is drenched in deep, profound peace. His higher members are still in the higher dimensions, resolving his karma in other realms. The twelve pairs of archangels are continuing to work together across the altar. When all of their work is finished and Lucifer returns transformed, there will be twelve arcs of light between the pairs. The negative aspects of Lucifer's influence in the twelve streams of human evolution will be cleared and transformed. Lessons will have been learned and mastered, and the streams will have fulfilled a part of their cosmic tasks. Humanity will have more allies and more individual abilities for the next round of evolution.

I also saw that there is a whole chapel and beautiful gardens devoted to welcoming in the redeemed luciferic imps. There are crowds of people and angels coming and going. A real celebration is going on. Many more human beings are awakening, transforming and coming up to the New Jerusalem.

### **Friday, September 12, 2014 – Joshua Tree, California**

When I arrived in the New Jerusalem, I went immediately into the room where Lucifer's body has been lying. The light in the room is now brighter and has been brightening steadily. There are numbers of beings, humans and other, who are sitting around the perimeter of the room. It's like a wake. Lucifer's lowest body is dissolving into light. It is shining and getting smaller and more and more porous with light, beneath the white sheet that covers him.

The twenty-four archangels, who have worked on the twelve streams of human evolution, are also becoming lighter and more transparent. The room was dark on one side, three months ago. When I looked in a few days later, there was a tiny flame in the twelve dark hearts. Those flames have intensified over time. Now, they are radiant and the room is brilliant. They and Lucifer are preparing to ascend. Their lower bodies are being metamorphosed into a new dimension of light through the inner work they are now doing. With their lowest bodies safe in this room, the twenty-four Archangels are traveling with their higher spiritual members up into higher realms and relating consciously with beings of higher dimensional hierarchies. They are finalizing their lessons in this phase of evolution by consciously raising the vibrations of their lowest bodies up into a higher vibration of light. They are ascending the cosmic evolutionary

ladder to the next hierarchy of being.

Lucifer will be working in the future for the higher evolution of worlds in a positive way. His former negative influence was a learning for himself as well as for those he tempted. The Galactic Federation, from a much higher dimension, has been positively inspiring the work of a number of Reptilian races such as Lucifer and his minions, and those who have 'intervened' in Earth evolution at other times, such as the Anunaki from Nibiru. Those beings of more technologically evolved races have negatively impacted human and Earth evolution in the past. Now it is time for many of them to assist in seeding and nurturing more positive aspects. Hence the potential transformation of the reptilian brain stem to the higher octave of Dragon Consciousness through the insertion of the golden dragon egg into the alta major – the newly awakened chakra at the base of the skull. (*Refer to the whole story in 'The Dragon Quartet.'*)

What will Lucifer do and where is he going, as his lowest body dissolves into light and he is 'born' into the next higher dimension for the first time? I do not know in advance. I can only ask, wait and see.

#### **Tuesday, November 18, 2014 – Fair Oaks, California**

The room where Lucifer lay is now open to cosmic space and choirs of angels are singing quietly and beautifully. Many, many beings are assisting in the redemption of Lucifer. He is still lying in state.

The twenty four beings around him are weaving and creating twelve arches over Lucifer's astral body. The arches are like delicately wrought golden filigreed bridges between the light and the dark. They are intricate but very strong. I see that in the future, there will be a tremendous streaming from the formerly dark side to the light side by many human souls, and also other beings of higher hierarchies. Now, the actual work of creating strong, beautiful bridges is going on.

#### **Wednesday, December 3, 2014 – Berkeley, California**

Up to the New Jerusalem and Christ said, when I asked for help, "Discipline is an inside job. You must do it. You must focus." So I will.

Lucifer was effective when humankind was fresh from the spiritual worlds, and still "trailing clouds of glory." His effectiveness has worn off. When Ahriman hit the scene, humanity was becoming more deeply enmeshed in physicality. The etheric world, and earth-bound thinking were prime and ripe for manipulation. Now humanity is so far and so deeply embedded in materialism that Lucifer's temptations have lost much of their former allure.

The Azuras have taken over where Lucifer left off. Individuals who in the past in this life have been susceptible to Lucifer's wiles are now more easily prey of the Azuras. Their goal is the intensification of Lucifer's methods. Now, not only is the person lifted

off the earthly plane to lose himself in illusion, but the actual Ego/I is being systematically destroyed. The effects of heavy drugs like 'crack' and methamphetamines are an example of that. Individuals lose their humanness – their individuality – and are enslaved to a drug that renders all other aspects of life meaningless – the mind, the heart, and the whole world.

Lucifer is being redeemed and he and his minions will help in the struggle against the temptations of the Azuras. Lucifer will in time, be working with Christ. We need all the help we can get.

### **Friday, December 5, 2014 – Berkeley, California**

Lucifer offered humankind the opportunity to become aware of, purify and transform our astral bodies to the higher octave of the Spirit Self (Manas.) Ahriman is the goad whereby we become conscious of our etheric bodies in order to transform them to the purified etheric Life Spirit (Buddhi.) Now that Lucifer is being redeemed because he has accomplished his task and we contemporary human beings have the immediate task of actualizing our Spirit Selves, the Azuras have arrived to provide the stimulus for lower Ego transformation to the higher octave of Spirit Man (Atman.)

Ahriman is still between two other forces of evil, and like the second child in the family, has had no time alone, but is always working in tandem with another force of perversion. The working with Lucifer is coming to its appointed, star-designated end. The Azuras are already here on Earth and their work has begun. If the actual consciousness of an individual can be perverted and the higher Ego/I is not able to function as the resident entity in the lower bodies, then the soul will be blighted and the Azuras take the place of the original, rightful, spark-of-the-divine human individuality. The human soul and spirit may be ejected from the bodies and a possessing ahrimanic and/or azuric being gain possession and residence in the human form.

### **Sunday, June 29, 2014 – Seattle, Washington**

At the new age service with Sally, listening to the gay pastor from Kansas – Elmer Gantry-ish, foul-mouthed, negative-conscious-intent style – I made a few realizations.

The luciferic illusion of the lala new age, with no acceptance or acknowledgment of the forces of opposition and evil working in the worlds – the total denial of a substantial part of the objective spiritual and physical reality – is that the lower human nature itself and the physical body are considered the 'gutter' and un-divine. Those parts of the human being are the only badness or evil in the universe. Everything else is "God the Good." Human beings are blamed for all the sin on Earth.

It is just another sly manipulation of the opposition (adamantly refused existence by the ignorant and manipulators) to separate human beings, one from the other and from the true connection to the divine spiritual worlds within and without. It is an

unthinking dogma which is easily twisted to create fear, shame, and then anger and rejection of spiritual reality. The belief is not logical, nor precise.

A modicum of discernment would reveal the faulty thinking behind the facade of "God the Good." It should be obvious to a clear observer, that there are other forces at work in the world than simply the positive. The negative exists on many levels and in many realms. Therefore, "God the Good" is simply not an accurate human description of the actuality of "GOD." God is "God the Good and Bad." The 'Creator of All' might be a better phrase, as it encompasses all duality, including the lower nature of humanity, and the tempters to negative actions.

### **Friday, January 9, 2015 – Fallbrook, California**

In the New Jerusalem, in the room where Lucifer's body lies in state as his soul travels with Christ into the higher regions of the spiritual dimension, there is a sense of peace, order and serenity. There is gentle music as of harps and tinkling bells and wind chimes. It will be a while yet.

This is a micro/macro pattern – the way of evolution from one stage of development to another. The entelechy journeys farther beyond its present state in company with higher beings in order to receive and create a new pattern of destiny for itself in the next higher stage of being. It may be that the higher beings begin the process and then the dimensions below them take their turn to rise into the dimensions that have been vacated. The vacuum created by the evolving beings moving up higher into the spiritual worlds, pulls the next hierarchy up into itself (at least, those who have done the work necessary to vibrate at the higher level.) It will be three years before Lucifer arises and ascends. There are a number of hierarchies between him and humans, so it will be a while yet for us. These three years are now crucial for individual humans to awaken, mature, evolve and master the lessons of this epoch in order to go on properly.

### **Thursday, February 5, 2015 – Marin Valley, California**

"This is how it is from my perspective." said Rudolf Steiner. "Lucifer has been moving out through the planetary spheres for seven months now. Before he left with Christ's blessing, accompanied and greeted by the beings of the higher hierarchies, he released all the general minions who were tempting anyone and everyone they could on the Earth plane. Most of these luciferic minions have joined Christ's school in kamaloka – to learn to help the human souls of those who have died, overcome the effects of their temptations while alive on Earth. Those humans who are in the after-death worlds are being assisted by their individual imps to overcome the results of their luciferically influenced behaviors and addictions, etc. That way there is redemption for both the imp and the person they influenced."

"In their next human incarnations, they will have two angels and no internal

imp. They may be responsible for allowing an Ahrimanic being to enter and dominate them, but it will not be automatic. Ahrimanic and azuric possession will be accepted or allowed by the individual – or not.”

“Children born from 2015 onward are free of their former luciferic imps. They will have 2 twin flame angels to help them. They will have more help overcoming the karmic effects of the luciferic temptations on their actions. They must be protected from the negative effects of the technological age and the possible possession by ahrimanic and azuric beings that inhabit cyber space.”

Kuthumi then spoke, “Humankind is going through the quantum leap which is going to need careful cultivation. The new potential in human thinking, feeling and willing must be protected and nurtured carefully and consistently. Communities of like-minded, aware people need to create proper environments for the new children to thrive. Everyone can help, or at least do their best. The psychology of the new age must include the beings and influences of the spiritual worlds. Although most human beings cannot perceive them, the denizens of the lower spiritual worlds and the radiant beings of the hierarchies are all around you humans. The eyes of the young are often open and from now on will be able to remain open – if the children are protected from the encroaching dark side ensconced in the systems and organizations of this world. We, you humans in life and we humans in spirit form, must work together to protect the delicate new potential that is incarnating in the babies to come. Careful discernment of cosmic evolutionary right or wrong, acceptable or ‘un’, is absolutely necessary. Everyone who can stand strong – must; for the proper evolution of Earth and all upon her, as well as the whole solar system and outward into the galaxy.”

### **Saturday, February 21, 2015 – Marin Valley, California.**

The being who greeted me as I arrived in the foyer of the auditorium in the New Jerusalem and I, went to see Lucifer’s astral body lying in state. The light in the room is getting brighter all the time. Someday I may not be able to enter without incinerating on the spot. Lucifer is farther out into the spheres and the higher hierarchies and his astral body is being raised to higher vibrations of light. All those, like myself who have redeemed their luciferic imp and have a twin-flame angel, are in a lovely long line in a beautiful garden and on long green-swards. In a beautiful room, there is the welcoming going on. After their first meetings with Christ, the trios are going to learn how to live and work together. Christalina, Regalis and I need to go and learn. We were one of the first trios, and the program had not begun officially yet, so we have just been on our own. I have been sooooo busy with the outer world and people and places that I haven’t tuned in very well. We will go together tomorrow and clarify lots of things. Timing is all good.

### **Friday, February 27, 2015 – San Juan Ridge, California**

Up to the New Jerusalem for a check-in. The main auditorium is filled with newcomers. The luciferic imp transformation continues in a smaller theatre.

The redemption of Lucifer, himself, continues and the room is becoming ever brighter. The light is spilling out now. I stepped into the room and received a mighty and penetrating blast of warm light which is what the Gnostics felt for and from Lucifer. I understand them now, although they were ahead of the actual time in Earth evolution when Lucifer's redemption would be effective to the positive for human evolution.

I felt a great attraction and overwhelming love and enjoyment in the light, and so stepped back outside the room to get a clearer understanding of what was happening. The whole experience was too extreme. I began to see: there is a new trinity being created for the solar system. The beings have been involved in our evolution for a long, long time already. They too are transforming and evolving. Christ is the sustainer and will be with us through all ages of time to come. He is the feeling, love, astral pivot-point. Lucifer, although he supplanted Christ in the astral bodies of humankind at the 'Fall' is really the bringer of the light of conscious thinking. And Sophia is the divine manifester who encompasses all duality of creation and disintegration in the physical world and also in time, who will, for humanity, assist in the creation of the Spirit Self, Life Spirit, and Spirit Man. It is through the forces and wisdom of Sophia that the physical body will ultimately metamorphose into the Spirit Man.

Lucifer has let go of Sophia, since the beginning of his redemptive journey into the higher hierarchies, but Ahriman is still tearing at the fabric of her existence.

The 'Spirit Self' begins to develop from the transformation of the luciferic imp in the astral body of the human being. The astral body can then be cleansed, healed and transformed through the efforts of the individual until it is purified and is a viable spiritual body, capable of functioning in kamaloka, the astral worlds and the New Jerusalem.

In the next phase, when the effects of Ahriman upon the etheric and physical bodies can be transformed, the functioning of the nerve/sense and lower (everyday, logical, sequential) thinking may be heightened to 'Life Spirit.' The negative aspects of all four ethers can then be purified and redeemed. That will happen in a couple of millennia, yet, when Christ experiences the 'crucifixion' in the astral/kamaloka world and ascends to the lower devachan realm of the lower heavens. It will herald the imminent redemption of Ahriman and the possibility of purification of the etheric body into the 'Life Spirit' body by individual human beings at that time.

When the 'crucifixion' in lower devachan occurs and Christ ascends into the sun – the doorway to upper devachan; the Azuras and Sorat, the sun demon, will be transformed. Then, the work of purifying and transforming the vestiges of the physical body into 'Spirit Man' can occur through the conscious application of Christed consciousness to the evolutionary potential of human physical existence through a fully

awake, enlightened Ego/I.

That will be the time of the raising of the divine Sophia to the heavenly spheres and her union with the divine Logos. It is also the end of physical, material existence. (It will be the end of the world as we know it, and I feel fine.) When that has all been accomplished, humanity will have diverged totally, most will ascend with Mother Earth and the solar system into a long pralaya, before another whole round of creation from primeval, undifferentiated matter comes about. But the separation of humanity will have come about and those who have consistently chosen the dark side will not be able to ascend because their vibrations will be too dense. They will remain with the residue of the earth and the dominion of the dark forces.

Will the elements be the same, or will they too have evolved and be different? I think, "yes, different." But that is only a science fiction story now. Millennia in the future, we will know.

### **Saturday, February 28, 2015 – San Juan Ridge, California**

I was welcomed by the being in the foyer. We looked in at the main auditorium and he said, yes, it is 'Spirit 101.' The 'trios' are still happening and he asked if I would like to make a presentation. I replied, "Only if my information is correct and in alignment with Christ's will." He said, "Yes, you are correct about the second deed of Christ and the redemption of Lucifer, and you are also correct about the development of the Spirit Self, Life Spirit, and Spirit Man." So we shall see when and what might be appropriate.

I went into the room of Lucifer and this time I experienced how it is the united energies of Christ and Lucifer as they travel together out to the higher hierarchies and the Galactic Federation at Galactic Center. They are going for celebration of accomplishment, the achievement of a major goal with cosmic ramifications, and the inauguration of a new dispensation on Earth. A new major cycle is being prepared. For this scale of change, however, there must be a clearing or transforming of many old paradigms, religions, organizations, and mind-sets. The better and faster we humans can choose positive change, the better for us. If we don't choose out of freedom and consciousness, then the changes will be initiated by disaster from outside – from external situations and circumstances. Couldn't we please wake up?????

Another aspect of the warm pleasurable love in Lucifer's darga (*resting place of the deceased body*) is the achievement of the arcs of light between the two groups of twelve beings who have guided the twelve streams of human evolution. Before the end of Atlantis, the seven planetary initiates and their neophytes and pupils left Atlantis and migrated to seven different areas of the globe. Now nearing the ending of this cycle, there have been the twelve zodiacal initiates and the twelve streams of human thought and evolution. The negative karma of those streams is being cleared as the guiding beings (Zeitgeists) are experiencing a kind of kamaloka of the last age.

*(This next section was my sharing for Spirituality 101. Lots of people were offering little bits, and these thoughts were considered appropriate for sharing.)*

From other humans I can learn how they have perceived and created meaning in their lives. The ultimate goal is to experience peace, love, joy, pleasure, and appreciation of all existence. All of these are engendered by positive interactions with other humans and the worlds – inner and outer. Positively engaging all one's faculties, senses and capacities, in all of one's four bodies, is the source of pleasure, love, JOY, and peace in life. At this time in evolution, the oppositional forces are working exceedingly strongly and virulently. War opposes peace, hate opposes love, sorrow opposes joy, pain opposes pleasure and the degradation of Earth's resources and the pollution and exploitation of the planet oppose the appreciation of all existence. We humans must decide in freedom as to which side we will choose to live on – which values we will base our lives, relationships, societies and cultures upon. The time allowed for vacillation is coming to an end. We must choose and then create communities that support our positive evolution.

### **Sunday, March 15, 2015 – Christian Community in San Francisco**

During the Act of Consecration of Man at the Christian Community in San Francisco, I asked, "What does a picture of the second crucifixion of Christ in the etheric world look like?" I saw that the elements had been held together by cosmic law and the truth of their beings in complete alignment with the rules that govern their existence. When the atomic explosions occurred – completely destroying the cosmic verities of physical existence – they were broken and lay in pieces with the etheric forces released in violent straight lines of destructive force. There is a before and an after picture. 1. Before is a harmonious swirl of spirals and an interpenetration of all the colors in balance. 2. After the event, the colors have separated out and are lying in chunks and pieces, and straight lines are piercing everything.

The deed of Christ from the astral world is to weave and reintegrate the colors and lines through loving kindness in a soft, nurturing cradle of love. We humans are re-knitting the etheric fabric back into wholeness by our love as well, and by giving our conscious etheric forces through ceremonies for the Elementals and our conscious appreciation of, and loving interaction with nature.

### **Saturday, March 28, 2015 – Marin Valley, California**

As Lucifer's astral body is lying in state in the New Jerusalem, his higher members are rising with Christ up through the hierarchies, toward Galactic Center. As they pass through the ranks of beings, they bring new light into each realm. The retarded beings there receive a greater influx of light and love. The good beings in each realm can use this light and love for the positive raising of those who have fallen

behind. Lucifer, the light bearer is now shining in the higher realms. If Lucifer is the brother of Christ, then he is a Kyriotete also. They are working together, Christ and Lucifer, in higher realms. Lucifer may not return to Earth, or perhaps, just sometimes he may come back, but he will have a whole new life-plan now. Or, perhaps he will come back and work with Christ and Michael. But I think he will reside on another plane or planet. I just asked about that and received the answer. "That is not known at this time. It is being arranged and will be mobile. Lucifer is maturing and evolving, even as we speak, and such things are not set in advance as there are soooo many possibilities and variables. Besides, for you humans, it really matters not at this time. When things settle, then you will know." "Thank you, I am satisfied." I replied.

*(The following message from St. Michael in 2014 is a brief recapitulation of it all.)*

### **Michaelmas – September 29, 2014 – Pine Grove, California**

As soon as I arrived in the New Jerusalem, and hadn't even gotten seated, I heard St. Michael speaking. "I am Michael. I uphold the cosmic laws of creation and functionality. Where my Lord Christ is, I am not needed. His powerful divine love sets to right where He is. That is why He must be invited into all human hearts. He will not trespass the free will of any being. Where Christ is, there is harmony with the positive evolution of life, and He is everywhere. The spiritual beings and forces antithetical to evolution, or those who have been lost in the past and have not yet found their way back to the light, are often in opposition to cosmic law. Their forays into the dark side are an education and test for themselves as well as for the humans who fall under their influence. These are the realms that I, Michael, must watch and moderate."

"When our Christ was walking on Earth, I did my best to keep the higher dimensions in order and functioning smoothly. Then He ascended into the clouds – the etheric world – as all humans who die have done. He transformed Death's domain and patterned the new after-life journey for human souls. He remained in the etheric world for three years before journeying out through the astral plane where Lucifer, who had lived there since the Fall in Lemuria, was informed that his redemption was coming."

"Then, Christ expanded out into lower and upper Devachan, the planetary spheres, teaching the inhabitants and hierarchies in each one, how to receive and work with the human souls that would be coming their way on the soul's journey to 'the midnight hour of existence' in Galactic Center, the heart of God. Then Christ continued and set the template of the after-life journey through the zodiac, the far stars of the galaxy, to the very heart of God, which radiates love and light like our sun but on a cosmic, galactic scale."

"While Christ so journeyed, I, Michael and my hosts, kept the etheric and astral planes as clear as we could. The lower earthly portions of these higher realms, however, were infested by a continually growing dark side. The vibrational rate

necessary to rise into the higher levels of the etheric and astral planes was itself a safe guard for those higher realms. I and my angels kept them clear and in readiness for Christ's return. There were occasional problems which needed severe cleansing, but order and harmony were always – in the end – restored."

"At the turning points of time, when cosmic cycles have come to their conclusions, and transformation and transition is in full swing, the opposition to that change will intensify their action and do their darndest to disrupt the positive potential of the cosmic moment. The end of Kali Yuga was one such pivotal point. The changing of the Archangelic guard is always another. Both of those occurred in the late 1800s. Ahriman had been pushing the materialistic agenda very hard, and in those years and many after (the materialistic thinking is beginning to lessen only now in the general population) extreme materialism damaged the souls of humanity to the point of dragging many angels into the void of atheism and the deadening belief in 'nothing.' Whole areas of kamaloka were barren as numerous human souls remained in the lower etheric realms, unable to journey into the stars as was appropriate. In a sense, they had traded their cosmic birthright for a mess of physical, material pottage. Unfortunately, their angels were often consigned to waiting in limbo for their person to be awakened, saved, and freed to move on; or in some cases, the angel was dragged into those dead, materialistic worlds with their human being. That scenario was always a disaster when the people died. Angel and human resided in a suffocating dead realm. "

"I, Michael, and my angels usually cannot enter such lower etheric and astral levels unless requested. But living human beings can raise themselves consciously into those realms and assist in Christ's work and mine, for the saving of human souls."

"I had to clear the etheric world of such dross and residue when I first came into regency. In the 1930's, again, I and my hosts needed to clear the etheric worlds for the re-entry of Christ on His way back to Earth from the midnight hour in Galactic Center. Christ returned. His second coming was accomplished in 1933, but, of course, the dark oppositional side was in full gear, working toward WWII and the total obscuration of the spiritual realities of the time. Christ re-inserted Himself into the etheric world and worked to cleanse, heal, and strengthen it."

"There was precious little time to do this healing, because atomic destruction was coming. Radiation damages the etheric worlds as well as the physical, so when the first tests were being done, there was incredible chaos unleashed in the etheric body of Earth. Christ, as the highest being and regent of the solar system, holds the perfect template of all manifested forms of life on this planet. The etheric body of Christ is the perfection of form and function of our world. This destruction of form and order in Earth's ether body, brought about by atomic explosions, was a second crucifixion for Christ. This time it was not a physical experience, but an etheric one. The harmony of the form and function of the earthly ether world was destroyed which was an attack on Christ's etheric body as well."

“Christ strove mightily to resurrect His etheric body and the Earth’s, which in time He did. When the radiation damaged the etheric body of Earth and would have annihilated all life on our planet, Christ was there in that realm to hold matter in form and stabilize the etheric plane. This task took tremendous forces which Christ had gathered on His journey to the stars and back. For many years now, He has held the etheric realm steady in spite of the atomic foolishness and deadly substances humanity has unwittingly unleashed on Earth.”

“At the ending of WWII, there was an onslaught of damaged souls that began to find their way to the etheric world with their own etheric bodies tattered and torn from the death by cyanide in the holocaust. (Cyanide is a substance which damages the etheric body, making the after-life difficult if not impossible to accomplish in the normal way, said Rudolf Steiner.) And then, thousands passed through from Hiroshima and Nagasaki. Their physical and etheric bodies had been vaporized. They are only a memory in the spirit worlds, having nothing left to work with in either the etheric or astral realms.”

“Christ and the hierarchies instituted new ways to heal and soothe the damaged souls. Many returned to Earth within a very short time, having been unable to move into kamaloka or beyond. Then, pollution on Earth began to modify the etheric touch-point of the human genome, the DNA pattern for a perfect body. Anomalies like the thalidomide babies began to rise up into the etheric worlds after their mostly untimely deaths – hard lessons for souls, difficult challenges for resolution, and often, blighted prospects for the next incarnation. These problems that arise now in etheric aberrations are similar to the moral failings such as untruthfulness in the past. The etheric abnormalities affect the physical body, making incarnation difficult. If the etheric body is too damaged, twisted, or deformed, the experiences of life cannot accurately imprint the etheric body. That causes problems in the after-life due to an inaccurate impression of the astral body from the damaged etheric. Therefore, the resolution in kamaloka is not complete because facets of life were not accurately recorded or were completely unavailable. This may over time accrue. Such unresolved residues from past lives may make it difficult to incarnate in the future.”

“In these cases, in this time, it is not the collateral effect of individual external karma, called the ‘sins of the world,’ that cause the problem, because Christ in his physical incarnation, crucifixion, descent into death, resurrection and ascension; atoned for the accumulated ‘sins of the world.’ Through those deeds, He became the Lord of Karma. The quandary human souls find themselves in today is not always the result of karmic action, but is instead, the result of sins of omission, ignorance, and unconsciousness – thoughtless life-style choices and lack of needed spiritual information, and such. These sins mostly rebound back on the individual. They bear the brunt of their own unconsciousness, which is often expressed in problems in the etheric body, from an unconsciously damaged physical body.”

“For seventy years, Christ has remained in the etheric world – holding steady, healing, and revitalizing when and where-ever possible. I, Michael, have supported my Christ through this time, to the best of my abilities.”

“At the disaster of Fukushima, the time had come when the damage from radiation and the pitifully low consciousness of humanity, necessitated a greater force than was possible from the etheric dimension. It was time, cosmically and in the perfection of evolution, to ascend into the astral world. The ascension of Christ’s resurrected and metamorphosed etheric body occurred over time and was completed in May of 2011.”

“There are, as said before, transition times. The move from the etheric realm to the astral was definitely one of those. It was time for sweeping changes. Christ ascended. I, Michael, also ascended with my hosts and many other leaders and guides of humanity. Formerly, the White Brotherhood, Ascended Masters, and other such highly evolved human individuals worked and lived primarily in Earth’s etheric body. These beings work daily with Christ to balance life on Earth, awaken and guide human souls, and encourage evolution in a multitude of ways. They also ascended at that time, to be in spiritual proximity to Christ and His loving, beneficent energy.”

“From the astral world of emotion, Christ pours unconditional love down on Earth and all her inhabitants. The biggest influx of this Christed love and quickening consciousness came in 12/21/2012 – which could be described as the second Pentecost. The time frames are different from the events surrounding the Mystery of Golgotha, but the sequence is the same. After Christ ascended into the clouds (the etheric world), 2,000 years ago, he began to send powerful new etheric impulses to humankind, beginning at Whitson/Pentecost and continuing ever after.”

“Now, Christ and all who work with him began to send new astral impulses for awakening humanity to cosmic destiny, creating community, and seeding a new world. Will humans wake and work with Christ? I, Michael and the hosts of Heaven await humanity’s conscious participation in their own destiny. It is happening slowly but surely. Thank you.”

Thus ended St. Michael’s message on this, his special day, Michaelmas, 2014.

*(The following series of Journal entries comes from the year 2016 to 2017. I was working extensively with Edgar Mitchell and the Interstellar Team: a group of human dead, extraterrestrials, and myself. The issue of the redemption of Lucifer arose in a number of times.)*

### **MARCH 30, 2016**

Arihimsa, the highest evolved was speaking, “So, the pattern of evolving planets is similar. There is always opposition to the rightful path of evolution, and by that means, the group undergoing extreme testing, learns to rise above the dominators, and

escape their control. It is interesting that here on earth, the key susceptibility for succumbing to external control, comes from the reptilian brain stem – the hard-wired reptilian implant from Lucifer at the time of ‘the Fall’ on Lemuria.”

I quickly inserted my question, “Is Lucifer always the reptilian culprit?” Arihimsa answered, “Oh, no. Each star system has a specific dark entity who is evolving along with that specific system. There is a higher dark power who directs such oppositional activities in a larger venue and perspective – someone higher than the regents of the star systems, who works galaxy wide. We have never seen or related to that being, only to his minions of varying degrees of development from the lower hierarchies.”

## **NEW YEARS EVE 2016**

### ***The Sixth Gospel of Lucifer Redeemed***

Lucifer has returned as the twin flame of Christ. The new consciousness – the new intelligence – he inspires, is the knowledge of the new dispensation – the new impulse of Christ’s potent new love from the astral world. I see Christ’s love flowing into every heart which will accept it, and the acceptance is created by the new burning white yellow light of Lucifer – which spearheads the flow of Christ’s pink love.

I realized, t. That oday is the return of Lucifer from his journey through the stars to Galactic Center. He travelled with Christ who reintroduced him to the higher hierarchies as “The Redeemed One,” “The Victor of Loving Consciousness,” “The New Light of Truth,” “The Consciousness of Our Times.”

The journey of the human soul, and perhaps all other souls of those whose lifetimes expire on earth, is changing once again. We will remain conscious after death – aware and conscious as we travel out beyond the sun and are guided by the redeemed Lucifer of the New Intelligence. The new cosmic wisdom that Lucifer is fostering will fill in all the spaces of non-comprehension in people’s minds and create light in the shadow unconscious which will then be filled and warmed with love. “God is love and love is understanding.”

Rudolf Steiner wrote *The Fifth Gospel* of the esoteric background of Jesus Christ’s life and deeds 2000 years ago. Now *The Sixth Gospel* is being enacted in the spiritual worlds. It is based upon the second great set of the deeds of Christ in the 20<sup>th</sup> and 21<sup>st</sup> centuries, and the redemption of Lucifer. Just as the times were dire 2,000 years ago, and at the time of Christ’s second deeds there was the disaster of World War II; so now when Lucifer has returned victorious and the second Pentecost is pouring new highly evolved and beneficent waves of love and consciousness down on earth, we have Trump and the threat of World War III. But here in the final moments, humanity will pull back from the brink. We will also succeed and be redeemed. We humans will be victorious in love and compassion and new cosmic consciousness.

## **New Year's Day – Sunday, January 1, 2017 – San Diego, California**

### ***The Sixth Gospel: The Second Deeds of Christ and the Redemption of Lucifer.***

Up in the New Jerusalem things are bright and beautiful. The Warriors of the Rainbow Light are jubilating. Lucifer has returned from Galactic Centre, and his body, which lay on the table for these last three years since 2013, has dissolved into light. The 24 Representative beings of the 12 streams of human evolution are actually 36 individuals, consisting of those on the correct path, and then the luciferic and ahrimanic aberrations. The correctly Christed and the luciferic beings have completed their transfer of information and lessons. Each pair has become one – having distilled the lessons of the luciferic digressions – and the single being for each of the appropriate 12 streams is now larger and wiser, more complex and profound. In time, the ahrimanic beings will also have fulfilled their destinies and be incorporated as newly gained wisdom into the 12 spiritual beings of correctly evolved human consciousness and cultures.

We all – myself, my spiritual family, and all my guides and inspirers – went to the main auditorium to see what was happening. It was filled to overflowing, so we stood in the back. I heard a voice that said, “It doesn’t matter where you are in this room or anywhere, I am always there, right beside you.” It was Christ who then came to us and asked me, “Will you work with Lucifer redeemed?” And I replied, “Yes, in the name of Christ.” And I understood that the reason I am asked, is because I have already seen so much of the process of his redemption and have meagerly sufficient information and knowledge of Anthroposophy to ‘grok’ his new wisdom and role in contemporary evolution.

## **Friday, February 10, 2017 – Santa Fe, New Mexico**

“Yes, get your work done. Yes, get up here, girl.” Edgar called to me as I was waffling around in my meditations. “There is work to do and serious questions to be answered. Then we all can finish up this past phase of our work together and get onto immediate issues such as: who or what are the unseen spiritual forces behind contemporary issues.”

And I saw hosts of luciferic, ahrimanic, and azuric beings clustered in the ethers and astral layers of the earth. So I asked Edgar and the team, “What is the purpose of understanding this – of knowing who is behind current events and influencing people and life?” Then I heard, “The truth will set you free.” And I saw that where we humans do not have correct information and so do not know the truth, there are dark and unconscious areas in our mind and heart’s.

These dark spaces are filled within our human psyche and feelings by astral ahrimanic and luciferic beings. We have no control over them because we are not aware of their existence. They control us in our thinking and feeling and willing. We experience the effects of the dark ahrimanic and luciferic beings as our own thoughts

and emotions, because they work in the subconscious areas of our lives that we have not brought to clear understanding, and therefore have not taken responsibility for our own thoughts, feelings, and the resulting actions in the world.

Once again, this points to the necessity of doing inner work. When one has bravely and carefully searched inside one's self and into one's past, and brought the clear light of conscious awareness into all aspects of oneself, one takes responsibility for those thoughts and feelings and can respond to life experiences out of choice rather than dark unconscious influences of fear, greed, and other deadly sins.

Worse yet, there are falsehoods, lies, and deceptions, which obscure reality – twisting and distorting truth. When we are not in sympathetic vibration or empathy with the positive evolutionary spiritual impulses of our time, we experience dissonance – dis-ease and dis-comfort in our bodies, souls, and spirits which causes physical illness, inappropriate behavior, and unconscious instinctive reactions to life's experiences. Most often, these responses to life are fear-based, because when the perceptions of reality are skewed, there is an unpleasant resonance set up within us. We can't understand what is happening – feel attacked – and so respond violently and fearfully towards anyone and everything that approaches us.

After a long time of behaving from such distorted motives, it becomes habitual and then people work to legitimize and institutionalize such negative and inhuman behaviors. We are in the midst of such a crisis right now.

However, light and love are on the rise. Christ lives in higher spiritual astral realms and rains down blessings of pink love. We humans have but to receive it and utilize it in our daily lives. As we individually change, we set up vibrations that assist others in awakening. We need to, and can, send pink love and light from our hearts and minds and create deeds of love which affect everyone. We are working in the fields of Earth to bring consciousness, love, and ultimately to create heavenly communities all over the world.

### **A Further Description of Lucifer.**

During the former Age of Pisces, in the Last Lemurian Period, the Ego/I of human beings individualized. It is allegorically called "The Fall" because it is a symbolic image of the descent of the spiritual faculty of consciousness into physical materiality. A spark of divine Ego (a tiny fragment of the mass of human ego potential) incarnated into an individualized form, and from this moment, is separated by matter from the totality of the universal consciousness. This brought the necessity of sleep for regeneration and remembrance; and death for returning from material bondage to the spiritual worlds; and for the progression of the evolution of consciousness, which is by nature, non-material.

So there it is. If life is that way (and it is), then death is a necessary part of the equation so long as we are still involved in the material-mineral world. Our spiritual, non-physical supersensible parts (our ether and astral bodies and Ego/I) must return home often for rest and relief from physical limitation. The astral body needs daily relief and so we sleep. The etheric cannot remain separated from the spiritual for too many years, and so we die. The dropping away of the physical sheath frees the other bodies to return home to their respective realms.

The Fall was a major turning point in human evolution. Who was that red snake in the white garden? What was he doing there anyway? The Bible says that he was the fallen archangel Lucifer. Because he no longer could abide the gaze of God and had chosen to separate from Prime Creator's evolutionary plan, he needed a new place for himself. So the newly formed earth was co-opted for Lucifer's intentions. Had Lucifer not arrived to tempt our progenitors, humanity would have ripened slowly in spiritual paradise; and when all faculties, organs, and abilities were sufficiently developed, we would have gently moved into further stages of physical manifestation in harmony with the divine plan, mature and well prepared for the vicissitudes of material existence.

However, we descended into matter before we were ready. We were prematurely pulled from Eden (from paradise and union with the divine) without being prepared to handle the duality of the three-dimensional world. Without the spiritual maturity to master the physical plane, humanity was thrown into an intense, steep learning curve that was activated by pain, suffering, and hard work, represented by the Biblical curse upon Adam and Eve.

History is the saga of the ups and downs, successes and failures on our collective path of duality and of trying to get back to Eden and unity with spiritual consciousness. And more often than not it seems, we got stuck in the negative painful pole, or tempted into extremes on either side. As a result of that premature development, the reptilian brain and the autonomic nervous system were necessarily created and activated because we were not sufficiently developed for conscious awareness of our new environment. We had no self-conscious motivation or guidance, and needed an automatic response system for survival.

Because we came too soon to earth, we had not yet developed a clear consciousness, and a large part of our awareness was undeveloped, unavailable, sub—or unconscious. And it just so happens, that Lucifer can live in unconscious states. Lucifer does not materialize physically, but mentally and emotionally. So a whole vast dark realm of human unconsciousness was created at the Fall, which

resulted in a new residence for the fallen archangel Lucifer, and for his minions. The angels and the other hierarchies who are still in union with the Divine, do not have a subconscious. Their thinking, motives, and goals are as transparent as their bodies, and are at one with the divine mind of God.

This brings up the fact that the light of consciousness is the nemesis of the dark unconscious. Most psychological work and meditative practices aim at clearing up subconscious buried information and experiences, and suffusing the dark unknown with the light of understanding and compassion.

This is another reason why it might prove useful to understand death and transform the fear of it. Perhaps the reptilian “fight or flight” brain is ready for the evolutionary leap to the “Dragon Brain,” transforming the image of the cold-blooded lizard devouring its own young to the fabled resplendent Dragon of wisdom, generosity, and power that soars between the worlds.
